

The Lamora Lagos

2026 Consolidated Content Guide

A searchable companion to the supplied brand, guest-application, specification, and fact-sheet documents.

Source	Included content
Brand Guidelines	Page-by-page explanation plus 37 original pages in the appendix.
Guest-Facing Brand Application Standards	Page-by-page explanation plus 14 original pages in the appendix.
Specification Sheet	Page-by-page explanation plus 19 original pages in the appendix.
Fact Sheet	All available paragraphs, tables, and embedded images are transcribed or reproduced in this companion.

How to use this guide

The front section makes each supplied page understandable in plain context and preserves its extractable text. The original PDF pages are then appended unchanged, ensuring that page design, logos, diagrams, and photography are not lost. The Word fact sheet is transcribed because it was not supplied as a PDF.

Brand Guidelines

37 supplied pages. Every page below is explained and its text is retained; the original designed pages appear later in the appendix.

This page sets out **BRAND STRATEGY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 5 BRAND STRATEGY** Positioning 05 CURRENT MARKET POSITIONING "A premium luxury lifestyle apartment hotel delivering privacy, exclusivity and personalised hospitality in the heart of Victoria Island." This positioning is the strategic anchor for the identity. The brand must communicate residential ease with hotel discipline: private rather than remote, refined rather than ostentatious, contemporary rather than trend-led, and personalised without becoming intrusive. The Lamora should be recognised for - Discreet luxury and a strong sense of privacy - Personal recognition and intuitive service - Contemporary Victoria Island relevance - Design-led comfort suitable for short and extended stays - Confident food, beverage and social experiences that can stand alone as Lagos destinations - Professional reliability for corporate, diplomatic and executive t ...

Source page 6: BRAND STRATEGY

This page sets out **BRAND STRATEGY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 6 BRAND STRATEGY** Vision & mission 06 BRAND VISION To become Victoria Island's benchmark for private, design-led luxury apartment hospitality. A place where discerning guests feel recognised, protected and entirely at ease - whether they stay for a night, a week or an extended period. BRAND MISSION To deliver personalised residential-style hospitality with hotel precision. We combine privacy, thoughtful design, contemporary Lagos character and consistently intuitive service so that every guest experiences luxury as ease rather than excess.

Source page 7: BRAND STRATEGY

This page sets out **BRAND STRATEGY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 7 BRAND STRATEGY** Audiences & guest mindset 07 The Lamora speaks to guests who value control of their time, privacy, quality and recognition. Primary audiences - Oil & gas executives and senior corporate travellers - Embassy personnel and diplomatic delegations - Long-stay expatriates and project teams - Business travellers requiring a premium Victoria Island base Secondary audiences - Weekend leisure and premium staycation guests - Destination restaurant and bar guests - Premium social and private-event clientele - Visiting families and guests seeking apartment-style flexibility Shared mindset They are time-conscious, digitally fluent and quality-sensitive. They notice details, dislike friction and respond to calm competence more than theatrical luxury.

Source page 8: BRAND STRATEGY

This page sets out **BRAND STRATEGY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 8 BRAND STRATEGY** Brand values 08 Six principles should shape every operational and creative decision. Discretion We protect privacy, use information responsibly and never confuse attentiveness with intrusion. Personalisation We remember preferences, adapt intelligently and make the guest feel recognised rather than processed. Refined Comfort Luxury is expressed through ease, quality, proportion, calm and thoughtful detail. Contemporary Lagos We are cosmopolitan and locally grounded, expressing Lagos through confidence, culture and craft - not cliché. Reliability Operational excellence, cleanliness, security, technology and consistency are part of the brand promise. Thoughtful Responsibility We choose durable materials, reduce waste, respect people and build partnerships that strengthen the local ecosystem.

Source page 9: BRAND STRATEGY

This page sets out **BRAND STRATEGY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 9 BRAND STRATEGY** Personality & brand promise 09 **BRAND PERSONALITY** Refined. Assured. Warm. Discreet. Contemporary. Human. The Lamora should never appear loud, generic or self-congratulatory. Its confidence comes from precision, restraint and the quality of the guest experience. Internal brand promise Private. Refined. Personal. This three-part promise is an internal decision filter: every service, design and communication choice should strengthen privacy, refinement or personal relevance - ideally all three. Note: this is an internal brand promise, not a registered or externally approved tagline.

Source page 10: BRAND STRATEGY

This page sets out **BRAND STRATEGY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 10 BRAND STRATEGY** Tone of voice 10 Quiet confidence. Clear language. Genuine warmth. Relaxed Formal Playful Serious Assured Modest Evocative Simple Conversational Institutional Heartfelt Clinical Writing principles - Use short, precise sentences and natural hospitality language. - Prefer specific benefits over luxury clichés such as "world-class" or "unparalleled". - Address the guest as an individual; avoid corporate distance. - Keep complaints and service recovery calm, accountable and solution-led. - No official external tagline has been supplied. Until one is approved, use the hotel name and approved campaign copy rather than inventing a permanent slogan.

Source page 11: 02 / BRAND LOGO

This page sets out **02 / BRAND LOGO** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 11 02 / BRAND LOGO** Our logo is the signature of the experience. Protect it with discipline. **THE LAMORA LAGOS - BRAND GUIDELINES 2026 - 11**

Source page 12: BRAND LOGO

This page sets out **BRAND LOGO** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix. **THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 12 BRAND LOGO** Primary master artwork 12 Use the supplied Lamora master logo exactly as provided. Master logo - vertical lockup The master lockup combines the hexagonal L monogram, the small "THE" line, the LAMORA wordmark and the LAGOS location signature. These components are a single piece of artwork and must not be re-typeset, redrawn or separated casually. The gold tone visible inside the current master logo is part of the supplied artwork. Because no separate approved gold colour code was supplied, it must not be sampled and introduced as an independent brand colour.

Source page 13: BRAND LOGO

This page sets out BRAND LOGO within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 13 BRAND LOGO Logo anatomy & hierarchy 13 The lockup carries four distinct recognition cues. 01 Hexagonal monogram Primary mnemonic. Use as an app icon, favicon or small identifier only when an approved production asset exists. 02 THE + rules A supporting signature line. Never remove, shorten or replace with plain typed text. 03 LAMORA Primary wordmark and strongest verbal recognition element. 04 LAGOS Location signature. Retain on the full master lockup to protect place recognition.

Source page 14: BRAND LOGO

This page sets out BRAND LOGO within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 14 BRAND LOGO Clearspace 14 Give the mark room to breathe. Define X as the cap-height of the word LAGOS in the master artwork. Maintain at least 1X clear space on all four sides of the complete logo lockup. 1X 1X 1X 1X No text, crop edge, decorative line, partner logo or photography detail may enter this zone.

Source page 15: BRAND LOGO

This page sets out BRAND LOGO within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 15 BRAND LOGO Minimum size & scaling 15 Protect legibility, especially the monogram and location signature. Full master logo Print minimum: 30 mm wide. Digital minimum: 160 px wide. For guest-facing premium applications, use larger than the minimum wherever possible. The master logo is intentionally detailed and should never be treated as a tiny utility mark. Monogram / icon only Operational minimum: 12 mm print / 48 px digital, only from an approved icon asset. Scaling rules - Scale proportionally from a corner; never stretch horizontally or vertically. - Do not compress the logo to fit a space. Change the layout instead. - Do not crop the wordmark or LAGOS line. - For embroidery, engraving and signage, request a vendor proof before production.

Source page 16: BRAND LOGO

This page sets out BRAND LOGO within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 16 BRAND LOGO Background applications 16 Contrast is part of the brand system. Preferred treatment: use the official master artwork on a Lamora Navy field. On white or cream, place the master artwork inside a disciplined navy holding device until approved transparent or single-colour master files are issued. On photography, avoid placing the detailed master artwork directly over texture or faces. Use a navy holding device with clear space.

Source page 17: BRAND LOGO

This page sets out BRAND LOGO within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 17 BRAND LOGO Co-branding & misuse 17 Partnership never means compromising the Lamora mark. Co-branding - Keep at least 1X clear space between The Lamora Lagos and any partner mark. - Match partner logos by optical height, not by raw width. - Use a thin separator rule only when needed; default to spacious separation. - The Lamora logo should not be visually subordinate on property-owned communications unless contractually required. Never - Stretch, rotate, skew or compress the logo. - Change the colours inside the supplied artwork. - Apply shadows, bevels, outlines, glows or other effects. - Re-typeset LAMORA or LAGOS to simulate the logo. - Place the logo on busy photography without a holding field. - Sample the logo gold and treat it as an approved palette colour. - Create department logos by modifying the monogram.

Source page 18: 03 / BRAND COLOURS

This page sets out 03 / BRAND COLOURS within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 18 03 / BRAND COLOURS Three colours create a disciplined, recognisable luxury system. THE LAMORA LAGOS - BRAND GUIDELINES 2026 - 18

Source page 19: BRAND COLOURS

This page sets out BRAND COLOURS within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 19 BRAND COLOURS Core palette 19 The Lamora colour system is intentionally restrained. LAMORA NAVY #072163 RGB 7 / 33 / 99 CMYK 93 / 67 / 0 / 61 LAMORA WHITE #FEFEFE RGB 254 / 254 / 254 CMYK 0 / 0 / 0 / 0 LAMORA CREAM #FBEFC9 RGB 251 / 239 / 201 CMYK 0 / 5 / 20 / 2 These three codes are the approved brand palette for day-to-day production. Pantone

references are not defined here because none were supplied; print vendors should colour-match to approved proofs rather than invent a conversion.

Source page 20: BRAND COLOURS

This page sets out **BRAND COLOURS** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.
THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 20 BRAND COLOURS Colour roles & ratios 20 Navy leads. White creates space. Cream brings warmth. 55% Anchor / authority 30% Space / clarity 15% Warmth / accent Lamora Navy - #072163 Primary brand anchor for backgrounds, headlines, signage, digital navigation, uniforms and high- recognition moments. Lamora White - #FEFEFE Primary breathing space for documents, menus, websites and operational clarity. Use generously. Lamora Cream - #FBEFC9 Warm accent for hospitality, editorial panels, selected packaging, borders and subtle contrast.

Source page 21: BRAND COLOURS

This page sets out **BRAND COLOURS** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.
THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 21 BRAND COLOURS Accessibility & contrast 21 Luxury must remain readable. Approved high-contrast pairings - Navy text on White - contrast ratio approximately 14.8:1. - White text on Navy - approximately 14.8:1. - Navy text on Cream - approximately 13.0:1. - Cream text on Navy - approximately 13.0:1. Avoid for body copy White and Cream have insufficient contrast with each other for normal text. Use Navy for text whenever White and Cream are the surface colours. Colour with photography - Use a navy overlay or holding device when photo detail competes with text. - Do not rely on colour alone to indicate status, error or action in digital interfaces. - Maintain a minimum 4.5:1 contrast target for normal text and 3:1 for large text and essential interface elements.

Source page 22: 04 / BRAND TYPOGRAPHY

This page sets out **04 / BRAND TYPOGRAPHY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.
THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 22 04 / BRAND TYPOGRAPHY Typography should feel editorial in expression and effortless in use. THE LAMORA LAGOS - BRAND GUIDELINES 2026 - 22

Source page 23: BRAND TYPOGRAPHY

This page sets out **BRAND TYPOGRAPHY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.
THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 23 BRAND TYPOGRAPHY Typeface system 23 A high-contrast serif brings elegance; a clean sans serif brings precision. DISPLAY TYPEFACE EB Garamond Elegant contrast, editorial character, understated luxury. FUNCTIONAL TYPEFACE NOTO SANS Clear, modern and highly legible across print, web, signage and operational documents. FALLBACKS Garamond / Georgia for display; Arial / Aptos for functional copy where the preferred fonts are unavailable. The logo lettering is custom artwork and is not a typography template. Never recreate the logo using the brand fonts.

Source page 24: BRAND TYPOGRAPHY

This page sets out **BRAND TYPOGRAPHY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.
THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 24 BRAND TYPOGRAPHY Hierarchy 24 Difference in scale should be deliberate, not decorative. HERO HEADLINE / COVER PRIVATE COMFORT, BEAUTIFULLY CONSIDERED. SECTION HEADLINE A more personal way to stay. SUBHEADING Luxury apartment hospitality in Victoria Island BODY COPY Use 9-11 pt for print body copy and a comfortable line length. Digital body copy should prioritise legibility and responsive spacing over rigid pixel matching. LABELS / NAVIGATION UPPERCASE - TRACKED - SHORT

Source page 25: BRAND TYPOGRAPHY

This page sets out **BRAND TYPOGRAPHY** within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.
THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 25 BRAND TYPOGRAPHY Layout & grid 25 Composition should feel calm, spacious and intentional. Recommended grid - Use 5-10% outer margins depending on format. - Build vertical or landscape layouts on a flexible 6- or 12-column grid. - Align text, imagery and rules to consistent hang lines. - Preserve generous negative space; never fill a page simply because space exists. - Use one dominant message per layout, supported by a clear secondary action. Editorial rhythm Prefer asymmetry with strong alignment: one large statement, one supporting image or block, and restrained functional detail. Do not centre every element by default.

Source page 26: 05 / BRAND ELEMENTS

This page sets out 05 / BRAND ELEMENTS within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 26 05 / BRAND ELEMENTS Geometry, restraint and repetition turn identity into a recognisable system. THE LAMORA LAGOS - BRAND GUIDELINES 2026 - 26

Source page 27: BRAND ELEMENTS

This page sets out BRAND ELEMENTS within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 27 BRAND ELEMENTS Hexagon motif & pattern 27 The hexagon is the supporting geometry of the brand - not a replacement for the logo. Pattern rules - Use a simple hexagonal line motif inspired by the outer geometry of the monogram. - Do not reconstruct or repeatedly tile the detailed L monogram itself. - For backgrounds, keep pattern opacity light - generally 5-15%. - Use Navy/Cream, Cream/Navy or Navy/White combinations only. - Allow large fields of quiet space; the pattern is an accent, not wallpaper.

Source page 28: BRAND ELEMENTS

This page sets out BRAND ELEMENTS within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 28 BRAND ELEMENTS Iconography & graphic rules 28 Icons should be simple enough to disappear into the experience. Icon style - Single-line or lightly rounded geometric icons. - Consistent stroke weight within an icon family. - No cartoon styling, gradients or decorative 3D effects. - Use Navy on light surfaces and Cream/White on Navy surfaces. - Operational icons must prioritise recognition over brand flourish. Rules, dividers and containers Use thin navy rules, cream highlight panels and generous white space. Rounded rectangles may be used sparingly for digital actions, while print layouts should rely more on alignment and spacing than boxes. Brand mark usage Use the approved monogram only when a production-ready icon file is available. Do not trace the JPEG or create new derivatives for apps, signage or merchandise.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 30 BRAND PHOTOGRAPHY Photography principles 30 Optimistic. Authentic. Dynamic. OPTIMISTIC Warm natural light Inviting human expressions Calm confidence AUTHENTIC Real service moments Natural styling Tactile detail DYNAMIC Lagos energy Architecture and movement Unexpected perspectives Use these three principles as a checklist for every commissioned image, social post, brochure and campaign. A photograph can express more than one principle at once, but it should never feel generic.

Source page 31: BRAND PHOTOGRAPHY

This page sets out BRAND PHOTOGRAPHY within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 31 BRAND PHOTOGRAPHY Principle: optimistic 31 Hospitality should look desirable without looking staged. Capture - Warm daylight or carefully controlled interior lighting - Confident, relaxed guests rather than exaggerated poses - Small signals of care: a table being set, a welcome, a quiet arrival - Spaces that feel finished, clean and naturally inhabited - Skin tones and materials rendered truthfully Avoid - Over-saturated sunsets or artificial luxury effects - Empty rooms as the default visual language - Forced champagne-toasts and generic celebration clichs - Hard flash, cluttered frames and unflattering mixed lighting

Source page 32: BRAND PHOTOGRAPHY

This page sets out BRAND PHOTOGRAPHY within the Brand Guidelines. The extracted source content is reproduced below for searchability; the original, fully designed page follows in the appendix.

THE LAMORA LAGOS | BRAND GUIDELINES 2026 | 32 BRAND PHOTOGRAPHY Principles: authentic & dynamic 32 Show a real Lagos experience with editorial control. Authentic - Feature real staff, real service gestures and culturally current guests. - Prioritise candid interaction over "look at camera" posing. - Use Nigerian art, craft, food and design as lived context - never as decorative stereotype. - Photograph textures,

hands, details, preparation and the human side of service. Dynamic - Use architecture, reflections, movement and layered city views to introduce energy. - Mix wide establishing frames with intimate crops. - Show breakfast-to-evening transitions, pool terrace activity and destination dining moments. - Keep composition sophisticated; dynamic does not mean chaotic.

BRAND GUIDELINES

BRAND GUIDELINE

How to use this manual

02

This document is the operating system for how The Lamora Lagos looks, sounds and behaves as a brand.

It translates the hotel's current market positioning into a consistent identity across guest communications, digital channels, signage, collateral, uniforms, sales materials, food and beverage touchpoints, and corporate documents.

What this manual controls

- Brand strategy and personality
- Logo use, clear space and production discipline
- Official colour codes and accessibility
- Typography and layout hierarchy
- Graphic elements, iconography and pattern
- Photography direction and human storytelling
- Print, digital, guest and environmental applications
- Brand governance and vendor approval standards

Strategic statements in this manual have been developed from the current Lamora market positioning and should be formally ratified by ownership before they are treated as external corporate declarations.

INDEX

01 / BRAND STRATEGY

Luxury should feel personal before it feels impressive.

BRAND STRATEGY

Positioning

05

CURRENT MARKET POSITIONING

“A premium luxury lifestyle apartment hotel delivering privacy, exclusivity and personalised hospitality in the heart of Victoria Island.”

This positioning is the strategic anchor for the identity. The brand must communicate residential ease with hotel discipline: private rather than remote, refined rather than ostentatious, contemporary rather than trend-led, and personalised without becoming intrusive.

The Lamora should be recognised for

- Discreet luxury and a strong sense of privacy
- Personal recognition and intuitive service
- Contemporary Victoria Island relevance
- Design-led comfort suitable for short and extended stays
- Confident food, beverage and social experiences that can stand alone as Lagos destinations
- Professional reliability for corporate, diplomatic and executive travellers

BRAND STRATEGY

Vision & mission

06

BRAND VISION

To become Victoria Island's benchmark for private, design-led luxury apartment hospitality.

A place where discerning guests feel recognised, protected and entirely at ease - whether they stay for a night, a week or an extended period.

BRAND MISSION

To deliver personalised residential-style hospitality with hotel precision.

We combine privacy, thoughtful design, contemporary Lagos character and consistently intuitive service so that every guest experiences luxury as ease rather than excess.

BRAND STRATEGY

Audiences & guest mindset

07

The Lamora speaks to guests who value control of their time, privacy, quality and recognition.

Primary audiences

- Oil & gas executives and senior corporate travellers
- Embassy personnel and diplomatic delegations
- Long-stay expatriates and project teams
- Business travellers requiring a premium Victoria Island base

Secondary audiences

- Weekend leisure and premium staycation guests
- Destination restaurant and bar guests
- Premium social and private-event clientele
- Visiting families and guests seeking apartment-style flexibility

Shared mindset

They are time-conscious, digitally fluent and quality-sensitive. They notice details, dislike friction and respond to calm competence more than theatrical luxury.

BRAND STRATEGY

Brand values

08

Six principles should shape every operational and creative decision.

Discretion We protect privacy, use information responsibly and never confuse attentiveness with intrusion.	Personalisation We remember preferences, adapt intelligently and make the guest feel recognised rather than processed.
Refined Comfort Luxury is expressed through ease, quality, proportion, calm and thoughtful detail.	Contemporary Lagos We are cosmopolitan and locally grounded, expressing Lagos through confidence, culture and craft - not cliché.
Reliability Operational excellence, cleanliness, security, technology and consistency are part of the brand promise.	Thoughtful Responsibility We choose durable materials, reduce waste, respect people and build partnerships that strengthen the local ecosystem.

BRAND STRATEGY

Personality & brand promise

09

BRAND PERSONALITY

Refined. Assured. Warm. Discreet.
Contemporary. Human.

The Lamora should never appear loud, generic or self-congratulatory. Its confidence comes from precision, restraint and the quality of the guest experience.

Internal brand promise

Private. Refined. Personal.

This three-part promise is an internal decision filter: every service, design and communication choice should strengthen privacy, refinement or personal relevance - ideally all three.

Note: this is an internal brand promise, not a registered or externally approved tagline.

BRAND STRATEGY

Tone of voice

10

Quiet confidence. Clear language.
Genuine warmth.

Writing principles

- Use short, precise sentences and natural hospitality language.
- Prefer specific benefits over luxury clichés such as “world-class” or “unparalleled”.
- Address the guest as an individual; avoid corporate distance.
- Keep complaints and service recovery calm, accountable and solution-led.
- No official external tagline has been supplied. Until one is approved, use the hotel name and approved campaign copy rather than inventing a permanent slogan.

02 / BRAND LOGO

Our logo is the signature of the experience.
Protect it with discipline.

THE LAMORA LAGOS • BRAND GUIDELINES 2026 • 11

BRAND LOGO

Primary master artwork

12

Use the supplied Lamora master logo exactly as provided.

Master logo - vertical lockup

The master lockup combines the hexagonal L monogram, the small “THE” line, the LAMORA wordmark and the LAGOS location signature. These components are a single piece of artwork and must not be re-typeset, redrawn or separated casually.

The gold tone visible inside the current master logo is part of the supplied artwork. Because no separate approved gold colour code was supplied, it must not be sampled and introduced as an independent brand colour.

BRAND LOGO

Logo anatomy & hierarchy

13

The lockup carries four distinct recognition cues.

01

Hexagonal monogram

Primary mnemonic. Use as an app icon, favicon or small identifier only when an approved production asset exists.

02

THE + rules

A supporting signature line. Never remove, shorten or replace with plain typed text.

03

LAMORA

Primary wordmark and strongest verbal recognition element.

04

LAGOS

Location signature. Retain on the full master lockup to protect place recognition.

BRAND LOGO

Clearspace

14

Give the mark room to breathe.

Define X as the cap-height of the word LAGOS in the master artwork. Maintain at least 1X clear space on all four sides of the complete logo lockup.

No text, crop edge, decorative line, partner logo or photography detail may enter this zone.

BRAND LOGO

Minimum size & scaling

15

Protect legibility, especially the monogram and location signature.

Full master logo

Print minimum: 30 mm wide. Digital minimum: 160 px wide.

For guest-facing premium applications, use larger than the minimum wherever possible. The master logo is intentionally detailed and should never be treated as a tiny utility mark.

Monogram / icon only

Operational minimum: 12 mm print / 48 px digital, only from an approved icon asset.

Scaling rules

- Scale proportionally from a corner; never stretch horizontally or vertically.
- Do not compress the logo to fit a space. Change the layout instead.
- Do not crop the wordmark or LAGOS line.
- For embroidery, engraving and signage, request a vendor proof before production.

BRAND LOGO

Background applications

16

Contrast is part of the brand system.

Preferred treatment: use the official master artwork on a Lamora Navy field. On white or cream, place the master artwork inside a disciplined navy holding device until approved transparent or single-colour master files are issued.

On photography, avoid placing the detailed master artwork directly over texture or faces. Use a navy holding device with clear space.

BRAND LOGO

Co-branding & misuse

17

Partnership never means compromising the Lamora mark.

Co-branding

- Keep at least 1X clear space between The Lamora Lagos and any partner mark.
- Match partner logos by optical height, not by raw width.
- Use a thin separator rule only when needed; default to spacious separation.
- The Lamora logo should not be visually subordinate on property-owned communications unless contractually required.

Never

- Stretch, rotate, skew or compress the logo.
- Change the colours inside the supplied artwork.
- Apply shadows, bevels, outlines, glows or other effects.
- Re-typeset LAMORA or LAGOS to simulate the logo.
- Place the logo on busy photography without a holding field.
- Sample the logo gold and treat it as an approved palette colour.
- Create department logos by modifying the monogram.

03 / BRAND COLOURS

Three colours create a disciplined, recognisable luxury system.

BRAND COLOURS

Core palette

The Lamora colour system is intentionally restrained.

LAMORA NAVY

#072163

RGB 7 / 33 / 99
CMYK 93 / 67 / 0 / 61

LAMORA WHITE

#FEFEFE

RGB 254 / 254 / 254
CMYK 0 / 0 / 0 / 0

LAMORA CREAM

#FBEFC9

RGB 251 / 239 / 201
CMYK 0 / 5 / 20 / 2

These three codes are the approved brand palette for day-to-day production. Pantone references are not defined here because none were supplied; print vendors should colour-match to approved proofs rather than invent a conversion.

BRAND COLOURS

Colour roles & ratios

Navy leads. White creates space.
Cream brings warmth.

55%

Anchor / authority

30%

Space / clarity

15%

Warmth / accent

Lamora Navy - #072163

Primary brand anchor for backgrounds, headlines, signage, digital navigation, uniforms and high-recognition moments.

Lamora White - #FEFEFE

Primary breathing space for documents, menus, websites and operational clarity. Use generously.

Lamora Cream - #FBEFC9

Warm accent for hospitality, editorial panels, selected packaging, borders and subtle contrast.

BRAND COLOURS

Accessibility & contrast

21

Luxury must remain readable.

Approved high-contrast pairings

- Navy text on White - contrast ratio approximately 14.8:1.
- White text on Navy - approximately 14.8:1.
- Navy text on Cream - approximately 13.0:1.
- Cream text on Navy - approximately 13.0:1.

Avoid for body copy

White and Cream have insufficient contrast with each other for normal text. Use Navy for text whenever White and Cream are the surface colours.

Colour with photography

- Use a navy overlay or holding device when photo detail competes with text.
- Do not rely on colour alone to indicate status, error or action in digital interfaces.
- Maintain a minimum 4.5:1 contrast target for normal text and 3:1 for large text and essential interface elements.

04 / BRAND TYPOGRAPHY

Typography should feel editorial in expression and effortless in use.

THE LAMORA LAGOS • BRAND GUIDELINES 2026 • 22

BRAND TYPOGRAPHY

Typeface system

23

A high-contrast serif brings elegance; a clean sans serif brings precision.

DISPLAY TYPEFACE

EB Garamond

Elegant contrast, editorial character, understated luxury.

FUNCTIONAL TYPEFACE

NOTO SANS

Clear, modern and highly legible across print, web, signage and operational documents.

FALLBACKS

Garamond / Georgia for display; Arial / Aptos for functional copy where the preferred fonts are unavailable.

The logo lettering is custom artwork and is not a typography template. Never recreate the logo using the brand fonts.

BRAND TYPOGRAPHY

Hierarchy

24

Difference in scale should be deliberate, not decorative.

HERO HEADLINE / COVER

PRIVATE COMFORT, BEAUTIFULLY CONSIDERED.

SECTION HEADLINE

A more personal way to stay.

SUBHEADING

Luxury apartment hospitality in Victoria Island

BODY COPY

Use 9-11 pt for print body copy and a comfortable line length. Digital body copy should prioritise legibility and responsive spacing over rigid pixel matching.

LABELS / NAVIGATION

UPPERCASE • TRACKED • SHORT

BRAND TYPOGRAPHY

Layout & grid

25

Composition should feel calm, spacious and intentional.

Recommended grid

- Use 5-10% outer margins depending on format.
- Build vertical or landscape layouts on a flexible 6- or 12-column grid.
- Align text, imagery and rules to consistent hang lines.
- Preserve generous negative space; never fill a page simply because space exists.
- Use one dominant message per layout, supported by a clear secondary action.

Editorial rhythm

Prefer asymmetry with strong alignment: one large statement, one supporting image or block, and restrained functional detail. Do not centre every element by default.

05 / BRAND ELEMENTS

Geometry, restraint and repetition turn identity into a recognisable system.

BRAND ELEMENTS

Hexagon motif & pattern

The hexagon is the supporting geometry of the brand - not a replacement for the logo.

Pattern rules

- Use a simple hexagonal line motif inspired by the outer geometry of the monogram.
- Do not reconstruct or repeatedly tile the detailed L monogram itself.
- For backgrounds, keep pattern opacity light - generally 5-15%.
- Use Navy/Cream, Cream/Navy or Navy/White combinations only.
- Allow large fields of quiet space; the pattern is an accent, not wallpaper.

BRAND ELEMENTS

Iconography & graphic rules

28

Icons should be simple enough to disappear into the experience.

Icon style

- Single-line or lightly rounded geometric icons.
- Consistent stroke weight within an icon family.
- No cartoon styling, gradients or decorative 3D effects.
- Use Navy on light surfaces and Cream/White on Navy surfaces.
- Operational icons must prioritise recognition over brand flourish.

Rules, dividers and containers

Use thin navy rules, cream highlight panels and generous white space. Rounded rectangles may be used sparingly for digital actions, while print layouts should rely more on alignment and spacing than boxes.

Brand mark usage

Use the approved monogram only when a production-ready icon file is available. Do not trace the JPEG or create new derivatives for apps, signage or merchandise.

06 / BRAND PHOTOGRAPHY

Every image should make the guest feel the experience
before they arrive.

THE LAMORA LAGOS • BRAND GUIDELINES 2026 • 29

BRAND PHOTOGRAPHY

Photography principles

Optimistic. Authentic. Dynamic.

OPTIMISTIC

Warm natural light
Inviting human expressions
Calm confidence

AUTHENTIC

Real service moments
Natural styling
Tactile detail

DYNAMIC

Lagos energy
Architecture and movement
Unexpected perspectives

Use these three principles as a checklist for every commissioned image, social post, brochure and campaign. A photograph can express more than one principle at once, but it should never feel generic.

BRAND PHOTOGRAPHY

Principle: optimistic

31

Hospitality should look desirable without looking staged.

Capture

- Warm daylight or carefully controlled interior lighting
- Confident, relaxed guests rather than exaggerated poses
- Small signals of care: a table being set, a welcome, a quiet arrival
- Spaces that feel finished, clean and naturally inhabited
- Skin tones and materials rendered truthfully

Avoid

- Over-saturated sunsets or artificial luxury effects
- Empty rooms as the default visual language
- Forced champagne-toasts and generic celebration clichés
- Hard flash, cluttered frames and unflattering mixed lighting

BRAND PHOTOGRAPHY

Principles: authentic & dynamic

32

Show a real Lagos experience with editorial control.

Authentic

- Feature real staff, real service gestures and culturally current guests.
- Prioritise candid interaction over “look at camera” posing.
- Use Nigerian art, craft, food and design as lived context - never as decorative stereotype.
- Photograph textures, hands, details, preparation and the human side of service.

Dynamic

- Use architecture, reflections, movement and layered city views to introduce energy.
- Mix wide establishing frames with intimate crops.
- Show breakfast-to-evening transitions, pool terrace activity and destination dining moments.
- Keep composition sophisticated; dynamic does not mean chaotic.

07 / BRAND APPLICATIONS

Consistency becomes tangible in the things guests hold,
see and use.

BRAND APPLICATIONS

Print & corporate collateral

Corporate materials should feel as considered as the guest experience.

Logo

NAME SURNAME

GENERAL MANAGER

The Lamora Lagos
Victoria Island • Lagos, Nigeria
name@thelamoralagos.com
+234 (0) 000 000 0000

Core production set

- Business card: 85 × 55 mm, uncoated premium stock preferred.
- Letterhead: A4, generous top space, minimal footer information.
- Envelope: Navy or White with restrained logo placement.
- Proposal / sales pack: White-led interiors with Navy structure and Cream feature pages.
- Invoices, forms and operational documents: functional first, with light brand framing rather than decorative excess.

BRAND APPLICATIONS

Guest, digital & environmental

The identity must scale from a key card to a building sign.

SOCIAL FEED

A more private
way to stay in
Victoria Island.

1080 × 1350

STORY / REEL

Quiet confidence.
Personal service.

1080 × 1920

WEB HERO

Luxury apartment
hospitality,
redefined.

16:9 / responsive

Guest touchpoints

- Key cards, luggage tags, in-room directories, menus, amenity packaging, laundry bags and welcome cards should use the three-colour system consistently.
- Exterior and interior signage must prioritise legibility, illumination quality and durable fabrication.
- Uniform branding should be subtle. Use the approved mark only from production-ready artwork and keep embroidery small and precise.
- Where a metallic logo finish is specified for physical fabrication, match to an approved sample. Do not substitute an arbitrary gold paint or foil and call it a brand colour.

BRAND GOVERNANCE

Approvals & asset control

36

A luxury brand is protected through process, not preference.

Single source of truth

- Maintain one controlled folder containing the latest approved logo files, colour specifications, typography guidance, templates and vendor-ready artwork.
- File names should include brand, asset type, colourway, format and version date.
- Retire old artwork rather than leaving multiple “final” versions in circulation.

Approval levels

- Routine applications: Marketing / Brand custodian.
- Guest-facing permanent materials: General Manager + Brand custodian.
- External signage, façade branding and major campaign identity: Ownership / authorised executive approval.
- Any new logo variant, tagline or colour: formal brand approval before publication.

Vendor proofing

Always request a pre-production proof for print, embroidery, signage, packaging and branded merchandise. Approve colour, scale, placement and finish before bulk production.

BRAND GOVERNANCE

Quick reference

37

Before anything leaves the hotel, check five things.

1

Is the official Lamora master logo being used without alteration?

2

Are the colours limited to #072163, #FEFEFE and #FBEFC9, with logo gold treated as artwork only?

3

Is the typography elegant, clear and consistent with the hierarchy?

4

Does the communication feel refined, warm, discreet and personal?

5

Is there enough space, contrast and production quality for the application to feel premium?

Production asset gaps to close

For full rollout, commission a vector logo suite (AI/EPS/SVG/PDF), transparent PNGs, approved one-colour/reverse logo variants, a dedicated monogram icon file, Pantone or physical print colour references, and an approved external tagline if required.

GUEST-FACING BRAND APPLICATION STANDARDS

Implementation guidelines for every guest touchpoint

BRAND PROMISE

Private. Refined. Personal. Every touchpoint should make the guest experience feel calm, intuitive, premium and unmistakably The Lamora.

2026 EDITION / CONTROLLED BRAND DOCUMENT

00 / DOCUMENT CONTROL

Document Control

Purpose, ownership and application of this standard.

Document	Guest-Facing Brand Application Standards
Property	The Lamora Lagos, Victoria Island, Lagos
Classification	Controlled Brand & Guest Experience Standard
Applies To	Front Office, Rooms, Housekeeping, F&B, Sales & Marketing, Events, Security, Engineering, Finance and approved vendors
Document Owner	General Manager
Approval Authority	General Manager
Version	1.0
Review Cycle	Annually or whenever a material brand, product or operating change occurs

This standard extends the master 2026 Brand Guidelines into practical guest-facing applications. It does not replace the master rules for logo use, approved colours, typography, clear space or production control.

NON-NEGOTIABLE

Only the approved master logo and production-ready derivatives may be used. Lamora Navy #072163, White #FEFEFE and Cream #FBEFC9 remain the day-to-day brand palette. Metallic gold visible in the logo artwork is a controlled production finish, not an unrestricted palette colour.

- 22 Pre-Production Approval & Collateral Register
- 23 Brand Audit & Final Approval Test

02 / BRAND APPLICATION PRINCIPLES

Brand Application Principles

Six operating principles ensure that every guest-facing item belongs to one coherent luxury identity.

Brand Recognition

Use the official logo exactly as supplied. Never redraw, re-typeset, stretch, crop, recolour, distort or decorate it. Do not create department logos by modifying the monogram.

Colour Discipline

Use Lamora Navy (#072163) as the anchor, White (#FEFEFE) as breathing space, and Cream (#FBEFC9) as a warm accent. Metallic logo gold is artwork/finish only unless separately approved.

Typography

EB Garamond provides editorial elegance for display headings. Noto Sans provides precision and legibility for body copy, prices, instructions, policies, interfaces and wayfinding.

Space

Luxury requires restraint. Avoid crowded layouts, multiple competing typefaces, excessive borders, dense logo repetition and decorative clutter.

Material Quality

Brand standards include paper, finish, fabrication, durability, print quality, binding, lamination, embossing, digital resolution and physical condition.

Tone of Voice

Guest communications should be refined, warm, discreet, personal and clear. Avoid hostile, bureaucratic, overly promotional or unnecessarily casual language.

VISUAL BALANCE

Recommended colour balance: approximately 55% Navy, 30% White and 15% Cream. This is a design guide, not a rigid mathematical requirement.

03 / GUEST JOURNEY & BRAND HIERARCHY

Brand applications should be managed as one connected journey, not as isolated pieces of artwork.

Stage	Typical Touchpoints	Brand Objective
PRE-ARRIVAL	Website, booking engine, OTA imagery, confirmations, pre-arrival emails, transfer communications, sales collateral.	Create confidence, desirability and clarity.
ARRIVAL	Entrance and reception signage,	Create immediate recognition and

Stage	Typical Touchpoints	Brand Objective
	registration, key cards, key wallets, luggage tags, Wi-Fi and welcome materials.	quiet luxury.
STAY	Guest directory, in-apartment information, laundry, housekeeping, room service, amenities and digital guest communication.	Make the stay intuitive and effortless.
DINING & SOCIAL	Restaurant, VIP Lounge, Coffee Shop, room service, menus, table collateral and bill presenters.	Create distinctive outlet experiences within the Lamora master brand.
DEPARTURE	Folio, invoice envelope, feedback request, thank-you card, transfer confirmation and post-stay communication.	End the experience with recognition and warmth.

04 / PRE-ARRIVAL & RESERVATION COLLATERAL

Transactional communications should feel premium while remaining operationally clear.

Reservation Confirmation

- Official The Lamora logo and clear property identification.
- Guest name and reservation number.
- Suite/apartment category, stay dates and number of guests.
- Rate, inclusions, deposit/payment status and cancellation conditions.
- Check-in/check-out time, contact details, location information and transfer options where applicable.

Visual Standard

Use primarily White backgrounds with Navy typography and restrained Cream accents. Transactional emails should not become promotional brochures; information hierarchy, mobile readability and confidence are the priority.

Pre-Arrival Message

Pre-arrival communication should anticipate likely guest needs such as airport transfer, arrival time, dietary preferences, special occasions and apartment configuration. Personalisation should be useful rather than intrusive.

05 / ARRIVAL & RECEPTION COLLATERAL

The first physical brand interactions should feel controlled, precise and welcoming.

Registration Card

A4/A5 or approved digital equivalent. Predominantly White; Navy headings and rules; Cream only as a subtle accent. Branding must never compromise the operational or legal purpose of the form.

Key Card

Preferred front: approved monogram or master mark on The Lamora Navy. Reverse: minimal property contact information and return-if-found instruction. Reusable cards should not display the room number for security.

Key Card Wallet

Navy exterior with official logo; White or Cream interior. Show only the information that helps the guest: guest name, suite number, breakfast information, Wi-Fi reference and reception contact where appropriate.

Luggage Tag

Navy base with approved logo and a discrete White information field. Use durable premium production. Guest-identifying information should remain discreet.

06 / WELCOME & VIP COLLATERAL

VIP treatment should become more personal, not louder.

Standard Welcome Card

Recommended A6 or premium folded format. Use the official logo/monogram, a concise warm welcome and a restrained layout. Personalised or signed cards are preferred where operationally practical.

VIP / Repeat Guest Card

- Address the guest by name.
- Reference repeat patronage, purpose of stay or a relevant preference when appropriate.
- Use the General Manager or designated host signature.
- Avoid excessive decorative finishes; the premium element should be personal recognition and material quality.

SERVICE PRINCIPLE

VIP collateral should signal recognition, privacy and care. It should never feel like mass-produced “VIP” merchandising.

07 / IN-APARTMENT COLLATERAL

Every item inside the apartment should look like part of one quiet, coherent information system.

- Guest directory
- Telephone/extension guide
- Wi-Fi card
- Breakfast information
- Laundry list and laundry bag
- Room service menu
- Housekeeping information
- Safety and emergency information
- Sustainability card
- Do Not Disturb / Service sign
- Notepad, pen and envelope

- Amenity packaging
- Robe/slipper branding
- Water presentation

Guest Directory Structure

- Welcome and About The Lamora Lagos
- Reception and Guest Services
- Housekeeping and Laundry
- Restaurant, VIP Lounge and Coffee Shop
- Room Service
- Gym and meeting/work facilities
- Transportation and local assistance
- Safety and emergency contacts
- House rules and check-out information

Wi-Fi Card

Keep extremely simple: “Stay Connected”, network, password and Reception assistance. Do not use this card as an advertising surface.

Do Not Disturb / Service Sign

Use one premium double-sided door hanger where practical: “PRIVACY PLEASE” and “PLEASE SERVICE MY APARTMENT”. Typography must be highly legible; logo remains secondary.

Laundry Collateral

Laundry list: White with Navy headings, clear pricing and Noto Sans functional copy. Laundry bag: White, Cream or an approved premium natural material with a small The Lamora mark. Avoid oversized branding.

08 / FOOD & BEVERAGE BRAND SYSTEM

The Restaurant, VIP Lounge and Coffee Shop may have distinct personalities, but they remain expressions of The Lamora Lagos master brand.

- Do not create independent outlet logos unless formally approved by ownership.
- Differentiate outlets through photography, material, copy tone, menu architecture, service and atmosphere.
- Retain the approved The Lamora logo, colours and typography family.
- Avoid introducing unrelated colour palettes that weaken recognition of the property brand.

MASTER BRAND RULE

Outlet personality is encouraged; identity fragmentation is not. Every menu, bill presenter, coaster and takeaway item should still be recognisable as The Lamora.

09 / RESTAURANT MENU SYSTEM

Menus should make the food easy to navigate and desirable without becoming visually theatrical.

Recommended Hierarchy

- Cover: official The Lamora branding.
- Section headings: EB Garamond.
- Dish names: EB Garamond or disciplined Noto Sans treatment.
- Descriptions: Noto Sans.
- Prices: Noto Sans, consistently aligned.
- Dietary symbols: one approved icon set used consistently.

Menu Architecture

Where applicable, organise content around Breakfast; Small Plates; Starters; Soups; Salads; Nigerian Favourites; Afro-Fusion; International Classics; Grill; Pasta; Burgers & Sandwiches; Sharing Platters; Desserts; Children's Selection; Beverages.

Copy Standard

Descriptions should sell dishes through ingredients, preparation and flavour cues. Avoid exaggerated claims and unnecessary adjectives. Price presentation must be consistent throughout the document.

10 / VIP LOUNGE APPLICATION

The VIP Lounge may use the richest, darkest interpretation of The Lamora visual system.

- Navy-dominant layouts with White typography and controlled Cream detailing.
- Approved metallic production finishes may be used selectively on premium physical materials.
- Applications: cocktail menu, wine list, bottle-service menu, table reservation card, coasters, napkins, bill presenters, reserved signs and event cards.
- Maintain immediate recognisability as The Lamora Lagos; do not create a competing visual identity.

11 / COFFEE SHOP APPLICATION

The Coffee Shop should feel lighter and more relaxed while remaining unmistakably The Lamora.

- White and Cream surfaces with Navy typography.
- Lifestyle imagery may be used where it supports product appeal.
- Applications: coffee menu, herbal tea menu, pastry labels, counter cards, takeaway cups, sleeves, napkins, food packaging and approved loyalty materials.
- Avoid unrelated "café" colour systems that disconnect the outlet from the hotel brand.

12 / ROOM SERVICE & TABLETOP COLLATERAL

Room service should be an extension of the Restaurant; tabletop branding should remain restrained.

Room Service

- Service hours and ordering instructions.
- Menu categories and pricing.
- Applicable taxes/service charges.
- Allergen information and preparation guidance where relevant.
- Digital QR access may supplement a printed option, but should not create access friction for guests.

Tabletop

Permitted items include menus, beverage/wine lists, napkins, coasters, table numbers, reserved signs, bill presenters and QR menu cards. Avoid repeating the logo on every visible object.

Bill Presenters

Recommended: The Lamora Navy exterior, precise debossed/embossed/printed logo, Cream or neutral interior, and minimal visible stitching. Restaurant, VIP Lounge and Coffee Shop presenters should belong to the same family.

13 / AMENITIES, WATER & DESK COLLATERAL

Small objects are high-frequency touchpoints and should communicate quiet quality.

Amenity Packaging

Use White or Cream packaging, Navy typography, a small official logo/monogram and clear product naming. Third-party amenity brands should be selected for visual compatibility with the apartment environment.

Water Presentation

Branded glass or reusable bottles are preferred where operationally feasible. Premium third-party bottled water may be presented with a The Lamora coaster/holder. Any custom label must meet applicable food and beverage labelling requirements.

Desk Collateral

- Notepad: White writing area, small logo, Navy footer.
- Pen: Navy, White or neutral metallic finish; branding small and legible.
- Premium desk/presentation folder: Navy exterior, approved logo, Cream or neutral interior.

14 / MEETING, BOARDROOM & WORKSPACES

Corporate touchpoints should be disciplined, functional and calm.

Meeting / Boardroom

- Meeting-room signage and directional signs.
- Writing pads, pens, water and presentation folders.
- Name cards, tent cards and conference menus.
- Digital display screens with restrained branded templates.

Use White-led layouts with Navy structure. Corporate collateral should generally be more restrained than leisure or promotional applications.

Work-from-Home / Business Space

- Wi-Fi and printing guidance.
- Workspace etiquette where required.
- Food and beverage ordering instructions.
- Meeting-room information and support contacts.

Do not turn workspaces into advertising zones. Brand presence should support calm productivity.

15 / GYM, HOUSE RULES & SAFETY

Clarity, safety and guest respect take precedence over decorative branding.

Gym

- Opening hours and access conditions.
- Equipment guidance.
- Towel return and water station signage.
- Safety notices and emergency contact.

House Rules

Policies should communicate boundaries without hostility. Where legal precision is required, retain the necessary wording but introduce it with courteous hospitality language.

Safety Collateral

Fire evacuation plans, emergency instructions, assembly points, pool safety, electrical warnings, lift notices and security guidance must use recognised statutory colours and symbols where required. Brand colours must never replace legally required safety coding.

16 / WAYFINDING & SIGNAGE

Guest signage should feel architectural rather than promotional.

- Reception, Restaurant, Coffee Shop, VIP Lounge and Gym.
- Meeting room, restrooms, lift lobby and floor identification.
- Apartment numbers, parking and arrival signage.
- Emergency exits and statutory safety signage.

Signage Principles

- High contrast and short language.
- Consistent arrows and iconography.
- Consistent mounting heights and illumination quality.
- Durable materials appropriate to the environment.
- Where metallic finishes are used, approve a physical sample before production.

17 / DIGITAL, WHATSAPP & QR APPLICATIONS

Digital brand discipline must match the quality of the physical guest experience.

Digital Touchpoints

Website, booking engine, digital menus, WhatsApp, email, QR destinations, guest portals, social media, digital signage and smart-room interfaces should all use the approved brand system and current information.

WhatsApp Guest Communication

- Use official The Lamora branding and business profile information.
- Keep messages concise, warm and service-oriented.
- Avoid slang, excessive emojis and unnecessary abbreviations.
- Automation should not sound robotic; hand over to a human when the guest requires judgement or assistance.

QR Codes

- Use for menus, guest directory, room service, gym information, feedback and approved promotions.
- Test every code before printing and after any destination change.
- Provide a human-readable instruction such as “Scan to view the Room Service Menu”.
- Maintain adequate quiet space and contrast for reliable scanning.

18 / FEEDBACK, DEPARTURE & LOYALTY

The final impression should reinforce recognition and ease rather than become a sales push.

Guest Feedback

Use unobtrusive language such as “Your experience matters to us.” Guests may be directed to an internal survey, Reception or official review platforms, but should never be pressured to leave a positive review.

Departure Collateral

- Folio and invoice envelope.
- Thank-you card.
- Transfer confirmation.
- Departure gift where applicable.
- Post-stay email.

Repeat guests should be recognised where guest data and privacy requirements allow. Thank-you communications should feel personal rather than generic.

19 / PACKAGING, SEASONAL & PARTNER APPLICATIONS

Campaign flexibility is allowed without compromising the master identity.

Packaging and Takeaway

Paper bags, food boxes, pastry boxes, coffee cups, sleeves, stickers, napkins and cutlery sleeves should be recognisable without being over-branded. Navy or Cream bases with disciplined logo placement are preferred.

Seasonal / Promotional

Christmas, Easter, Valentine's Day, Ramadan/Eid, Independence, New Year, brunch and special events may introduce campaign photography and artwork. The official The Lamora logo must remain unchanged and visually anchored.

Third-Party / Partner

- Maintain clear space between marks.
- Match partner logos by optical height rather than raw width.
- Avoid crowded logo walls where possible.
- Do not alter either party's logo.
- The Lamora should retain appropriate prominence on property-owned communications unless contractually agreed otherwise.

20 / MATERIAL HIERARCHY & TEMPORARY NOTICES

Production spend should follow the importance and frequency of the guest touchpoint.

Tier	Typical Applications	Production Approach
Tier 1 - Signature	Key wallets, VIP cards, menu covers, bill presenters, guest directories, premium folders, signature packaging.	Premium material and finish: texture, deboss/emboss, approved foil, fabric, leather alternative or precision metalwork where suitable.
Tier 2 - Core	Menus, welcome cards, laundry lists, room-service collateral, notepads, meeting stationery.	Excellent print quality and disciplined brand execution with cost-effective repeatability.
Tier 3 - Operational	Forms, temporary guest notices, transactional printouts, short-term instructions.	Legibility, accuracy and consistency first. Even temporary collateral must look intentional.

Temporary Guest Notices

Handwritten paper notices taped to guest-facing surfaces are not acceptable except during an immediate emergency. Maintain approved templates for maintenance, lift service, utility interruption, event/noise advisories and access restrictions.

- Official logo.
- Clear headline.
- Concise explanation and timing.
- Apology where appropriate.
- Guest assistance contact.

2. PROPERTY DESCRIPTION

The Lamora Lagos is a contemporary luxury serviced apartment hotel located in Victoria Island, one of Lagos' foremost commercial, diplomatic and lifestyle districts.

Designed to combine the independence and residential comfort of a private apartment with the professional service standards of an upscale hotel, The Lamora Lagos offers 31 serviced suites across five accommodation categories, from stylish Studio Suites to an exclusive four-bedroom Presidential Suite.

With a combined theoretical accommodation capacity of up to 116 guests, the property is particularly suited to corporate executives, families, diplomatic travellers, project teams, long-stay residents and VIP guests requiring greater space and privacy than conventional hotel accommodation.

The accommodation offering is complemented by dedicated dining and social spaces including a Restaurant, VIP Lounge and Coffee Shop.

The Lamora Lagos service philosophy is: **PERSONAL. EFFORTLESS. REFINED.**

3. ACCOMMODATION INVENTORY

The Lamora Lagos comprises 31 serviced apartments/suites configured to accommodate individual travellers, couples, families, corporate groups and extended-stay residents.

Suite Category	Maximum Guests per Suite	Number of Units	Maximum Category Capacity
Studio Suite	2	6	12
1-Bedroom Suite	2	6	12
2-Bedroom Suite	4	12	48
3-Bedroom Suite	6	6	36
4-Bedroom Presidential Suite	8	1	8
TOTAL		31	116 Guests

4. SUITE CATEGORIES

STUDIO SUITE

Inventory: 6 Suites

Maximum Occupancy: 2 Guests

The Studio Suite provides an elegant and efficient residential environment designed primarily for individual business travellers and couples.

The suite is intended to combine sleeping, relaxation and functional living requirements within a contemporary open-plan arrangement.

Ideal For

- individual corporate travellers;
- couples;
- short business stays;
- consultants;
- weekend stays; and
- single extended-stay residents.

1-BEDROOM SUITE

Inventory: 6 Suites

Maximum Occupancy: 2 Guests

The 1-Bedroom Suite provides greater separation between sleeping and living areas, offering enhanced privacy and residential comfort.

Typical Configuration

- one private bedroom;
- ensuite bathroom;
- separate living area;
- dining area, where applicable;
- kitchen or kitchenette facilities;
- workstation; and
- residential storage.

Ideal For

- corporate executives;
 - couples;
 - extended-stay guests;
 - expatriate residents;
 - project consultants; and
 - diplomatic travellers.
-

2-BEDROOM SUITE

Inventory: 12 Suites

Maximum Occupancy: 4 Guests

The 2-Bedroom Suite represents the property's largest accommodation category by inventory, with 12 suites, accounting for approximately 39% of total available units.

Designed for guests requiring additional accommodation flexibility, the suite provides two bedrooms together with shared residential living facilities.

Typical Configuration

- two bedrooms;
- bathroom facilities according to final unit design;
- living/lounge area;
- dining area;
- kitchen facilities;
- storage;
- workstation or business-use area; and
- residential amenities.

Ideal For

- families;
- corporate colleagues;
- long-stay project teams;

- diplomatic guests;
 - relocation stays; and
 - executive sharing arrangements.
-

3-BEDROOM SUITE

Inventory: 6 Suites

Maximum Occupancy: 6 Guests

The 3-Bedroom Suite provides spacious residential accommodation suitable for families, executive groups and longer-stay occupants.

Typical Configuration

- three bedrooms;
- multiple bathroom facilities according to final unit design;
- substantial living area;
- dining area;
- kitchen;
- enhanced storage; and
- residential guest amenities.

Ideal For

- families;
 - senior executive groups;
 - diplomatic delegations;
 - long-stay residents;
 - corporate project teams;
 - relocation guests; and
 - small travelling groups.
-

4-BEDROOM PRESIDENTIAL SUITE

Inventory: 1 Suite

Maximum Occupancy: 8 Guests

The 4-Bedroom Presidential Suite represents the flagship accommodation offering at The Lamora Lagos.

Designed for senior executives, VIP guests, diplomatic visitors, prominent personalities and families requiring exceptional privacy and space, the Presidential Suite provides the property's premium residential experience.

Configuration

The Presidential Suite provides:

- four private bedrooms;
- premium bathroom facilities;
- expansive living and entertainment areas;
- dining facilities;
- full residential kitchen;
- enhanced guest amenities;
- premium furnishings and finishes;
- executive workspace;
- enhanced privacy; and
- personalised VIP service.

Ideal For

- VIP guests;
- senior corporate executives;
- diplomatic guests;
- government delegations;
- celebrities and public personalities;
- premium family stays; and
- private executive hosting.

5. ACCOMMODATION SUMMARY

Inventory by Category

- 6 Studio Suites

- 6 One-Bedroom Suites
- 12 Two-Bedroom Suites
- 6 Three-Bedroom Suites
- 1 Four-Bedroom Presidential Suite

Total: 31 Serviced Suites

Maximum Theoretical Guest Capacity: 116 Guests

The maximum capacity is calculated on the stated maximum occupancy of each suite and remains subject to final hotel policies regarding adults, children, additional beds and individual booking conditions.

6. STANDARD SUITE FEATURES

Subject to final category specifications, accommodation at The Lamora Lagos is designed to provide a contemporary luxury residential hospitality experience.

Standard facilities are expected to include, as applicable:

- premium bed and bedding package;
- ensuite or dedicated bathroom facilities;
- contemporary guest amenities;
- comfortable living and relaxation spaces;
- smart television;
- high-speed wireless internet access;
- individually controlled air-conditioning;
- work desk or workstation;
- wardrobes and luggage storage;
- electronic in-room safe;
- telephone/intercom access;
- tea and coffee-making facilities;
- refrigerator;
- dining facilities according to suite category;
- kitchenette facilities;

- crockery, cutlery and glassware;
- premium towels and linen;
- blackout window treatments;
- bedside power outlets;
- USB/charging facilities;
- housekeeping service;
- complimentary bottled water on arrival; and
- guest information/service directory.

7. EXTENDED-STAY FACILITIES

As a luxury serviced apartment hotel, The Lamora Lagos is specifically designed to accommodate both short-stay and longer-term residents.

Extended-stay functionality includes or is intended to include:

- residential-style living areas;
- separate bedrooms in applicable categories;
- kitchen and kitchenette facilities;
- refrigerators;
- dining areas;
- enhanced wardrobe and storage capacity;
- regular housekeeping services;
- laundry support;
- high-speed internet connectivity;
- corporate billing arrangements;
- long-stay accommodation packages;
- personalised guest-preference records;
- engineering and maintenance support;
- guest security controls; and
- extended-stay service packages.

8. FOOD & BEVERAGE

The Lamora Lagos incorporates three principal guest-facing food and beverage concepts.

RESTAURANT

The property's principal restaurant provides a refined but approachable dining environment serving residents, corporate guests and external patrons.

21. BRAND POSITIONING

The Lamora Lagos is designed around three core service attributes:

PERSONAL

We recognise the individual and tailor the experience around the guest.

EFFORTLESS

We remove unnecessary friction and make each stage of the guest journey simple and intuitive.

REFINED

We deliver our service with discretion, attention to detail, consistency and understated sophistication.

The property's operating culture is supported by the **LAMORA Service Code**:

L — Listen & Learn

A — Anticipate

M — Make it Personal

O — Own the Outcome

R — Respond with Grace

A — Always Elevate
